The Ethiopian constitution article 15 grants for every one the right to life.This are the rough figures of the peoples that have been killed in the last 21/2years or after command post has begun to rule west oromia with their names that we got from the community and families from 5 Districts or Woredas.There are still alots of peoples killed ,but we couldn't get their names.

Eg.Guliso District from- Bedas Dilla,Genji District Busano,Dibe,Minjo Embraro,Yubdo Chisa Bori,Alaku Dacha,Alaku Dogoma.Some of them have been taken from prison jails and killed on streets in forests and their fleshs have been eaten by wild animals.It is not only killing the people that is sad the families can not take the dead body with out permission of the command post. They don't have right to bury the dead bodyEven some times they kill ason and take the father to prison E.g They killed Hirpa Tamane andimediately took his father Tamane Tadase to the prison from Guliso District Tegie and he could not take part on the burial ceremony of his son..These peoples did not commit any crimes.The government only criticize them that they all support O.L.F (Wbo) what /whom they Call shaneSo,let the international community judge the depth of human rights violation in Ethiopia.

**The Ethiopian constitution article 35 grants women's right&36 grants Children's right.But this forces shoot a pregnant ladies and children intentionally.**

**The Ethiopian constitution article 16-grants protection against bodily harms.**

**When the security forces attack the Civilians with out any reason can we say such forces had even orientation about a military discipline or human rights not even training,Even if almost the government security forces are the real enemies of the Oromo peoples specially the Oromia special forces are the worst one.Relatively the federal polices are better**

**See Pictures below for confirmation for heavy bodily harms/ injuries in west wollega.This are the few ones alots of peoples became disabled by bulets and sticks by these forces since 21/2(Two and half years).**

The medias that are controlled by the government like OBN,FBC,EBC does not Broad cast such truth(human rights violation in Oromia Ethiopia at all)and also in Tigray they only serve the government the journalists are not doing what is expected from a prpfessional journalist they are allways telling a lie to the community.And also try to cheet the international community all the time.

Communities, specially the OBN they know what is going on Oromo peoples but they don't say anything they always talk about law enforcement in Tigray but they don't respect a law.The OBN is the only one sided media and they broad cast a very foolish things to satisfy the government they serve only meaning that they are not serving the Oromo community they are ought to serve as their name indicate Oromia.As you can see from this document OBN did not report the bodily injuries and deaths in Oromia at all since the crimes are done by the government.So,can we consider OBN as Oromo media? Rather we can say a nefteгна media.This is very sad for us and Shame for OBN.

**Death**

**Takalu Amuma Aira District Wayukoli Kebele died on**  
**17/5/2013**

Here are some peoples with a gun shot including 3 years old Child. There are still a lot of people with a gun shot even in prison at meeting places, but we couldn't get their names all. A person you see above with head injury Takalu Amuma from Aira District, Wayukoli Kebele stayed in the Hospital for 26 days and then died on 25 January 2021. His estimated hospital fee is not less than 30,000 ETB. A lady whose name was Derartu Daba from Guliso District Tegie Galawo Kebele with her 3yrs old child Furi Tolesa Temesgen as you see from the picture injured on Lt foot and Lt calf on 9 November 2020 has stayed more than 6wks in a hospital and paid about 33,000 ETB. Look how difficult it is for one farmer. These people didn't commit any crime; it is only being Oromo. Can a 3yrs old child commit any crime? For committing such crimes, the army officials get an award from the government rather than taking them to the court. For example: On 29 January 2021, one higher army official came to Chalia military camp from Addis Ababa (Finfine) and awarded the commander in chief (Sajin Ebro Usen) for killing 14 civilians around Chalia and burning houses and destructing houses also for practicing such bodily injuries and the members of Oromia Special Forces were shaking hands for the commander. It is very sad the Ethiopian constitution article 32 grants freedom of movement but it is very difficult in West Wollega and Qelem Wollega zones even the government workers are not going to the country side to visit their families, because if the security forces meet them they just say you have connection with Wbos/OLF troops and arrest them/shoot them. Our government only instructs the security forces to shoot not to compensate the victims, not to get justice. So, let us live the matter for the International community, Amnesty International, Human Rights Watch and UN, USA, European Union to further investigate and entertain accordingly.

From Ww Guliso District on 24/3/2021 Sajin Ebro Usen the commander in chief of Chalia military camp shot Gutu Qalbesa and prohibited access to medical care and he stayed bleeding for about 8 hours and finally died at 1:30pm. Again the commander refused to give the dead body to the family and he stayed on the ground until 7:30 pm. This commander again shot a man called Ayana Mathewos Lamesa the same day at 8:00 pm and found dead. Both are from Chalia 01 Kebele. Again he prohibited the dead body and gave it for the families at 11:00 am the next day and both of them are buried.

It looks that as if he is licensed for killing civilians from the government that is why they gave him a gold award on 25/5/2013 at Chalia military camp. Also Sajin Dagne of Jarso Badeso military camp both are from Guliso District. They made their routine activities to kill civilians, burning houses, bodily harms and taking the property of the Oromo peoples,

These are the rough number of the houses of the community burned, distructed and property robed by the Oromia special forces.E.g-Catles-Ox,Cows with calfs,Sheeps.There are still alots of similar crimes going on, but we couldn't get the names from diferent woredas and kebeles.They were burning the houses with the Crops and coffees and they take some properties to their camps.E.g-They take the iron sheets and furnitures all when they distruct ahouse as you might see the picture below,it is also very difficult to take a picture because if they see some one taking a picture they just shoot. On 3 April 2021 the Oromia Special forces came to Sanki Dano kebele from Jarso military camp and taken 15 catles of Mr.Hanba Kusa by force whom they consider Qero and 1 Ox of Gebeyo Sefu as his son is Qero member with out a permission from a court( a letter).The same day the militaries from Chalia military camp commander in chief Sajin Ebro Usen has slaughtered 1 Ox and sold 1 Ox on the market.Look what is going on in Oromia region specially in west wollega Zone .So,how can such a government talk about the law enforcementEven the dictater durgue government did not do such crimes.Most cases pass through the court process in the Dergue regime. See pictures below for confirmation.

The Ethiopian constitution article-40 grants the right to property.

Suggestion-It is better to give an assignment for Oromo Diasporas to remind the United States of America to reconsider the application of HR-128 on a Dictator Ethiopian Government, since the government is against Democracy and human right.

Also not account able to the Ethiopian Constitution .Also does not respect the UN charters E.g United Nations Children's right,women's right the security forces shoot childrens and even pregnant ladies in labour to be transported to the health facilities on the street,but the government of Ethiopia has signed the Charter already some years back.The Ethiopian constitution article 15 grants the right to life, but practically not applicable the security forces intentionally

kick and kill who ever they want to do so in Oromia region for which this document is awitness.They have been taking similar actions in d/t parts of the region specially in west Guji zone and west wollega.West wollega has 23 Districts(Woredas)most of them are planting coffees,how ever the communities are not looking after their coffee plants since the command post has began because if they see them in the coffee plants they say oh you brought some thing for wbos/whom they call shane and shoot the peoples simply.This will not affect individuals only it has an impact on the GDP of the country as well.The Oromia Qeros had graete roll to bring Dr.Abiy to the power by giving their crucial lives how ever Dr.Abiy targeted the Oromia Qeros since he came to the power.In the woyane regime the security forces have been shooting peoples only during confilicts in pp they just shoot/kill whom they are indoubt of not supporting them or supporting their oponents.Where is the supremacy of law?Dergeu had partially dis armed the Oromo peoples,Woyane had partially dis armed Oromo peoples and Dr.Abiyi Ahimed/ pp has almost dis armed totally the oromo peoples.But nations and nationalities living in oromia region are armed.E.g Amhara peoples But the Ethiopian constitution article 25 grnts that all citizens are equal before law.Most parts of Oromia are under command posts for more than 2 ½ yrs.Last year when the Amhara Officials were killed we expected that the government may declare a command post on the Amhara region but they did not do,so can we say that all citizens are equal before a law.Still the Amhara Special forces are crossing borders and attack the Oromia,Beneshangul and Tigray regions.

Last time the deputy prime minister went to metekal &promised the Amhara peoples to be armed not the other nations and nationalities look how the discrimination is .In the country the government deosn't want to negotiate with opposition parties but,the sudanith troops cougth alarge space of farm land and invaded Ethiopia still the government is not willing to take an action says all Deplomacy this is amazing why not diplomatic approach with TPLF and OLF?

This will totally destruct Ethiopia it will not be asolution,if you defeat to day tomorrow you will be defeated.

This are the rough number of peoples that have been in prison from 5weeks up to 2years at in appropriate prison jails at kebeles and wordas where there is no water supply,enough toilet no food.Because the international communities such as Red Cross, Amnesty international, Human rights watch cannot see them. They can't get treatment food aid with out doing any crime.Their families are suffering to feed them at prison jails.The government criticizes them that they all support OLF(Wbo) whom the government call Shane.So how can such agovernment talk about the supermacy of law and democracy?There are still alots of peoples that are taken to prisons daily for similar reasons but it is very difficult to get their names and even difficult to visit prisinors.The prison is also on going,the community can't claim any thing the security forces does not listen to the peoples totally, hence many innocent peoples have been put in prison from d/t Districts.

From 23 Districts of west wollega Zone we only tried to collect the datas from 5 Districts.So you can emagine how vast the problem of Assassination and prison is. Let the international community judge also

Qeros were elected officially by the communities during team Lemma, but now they are condemned by pps.

The Ethiopian constitution article- 17 grants not to be arbitrarily arrested .

The Ethiopian constitution article 19- grants the rights of persons arrested and 21- grants opotunity to communicate or visited by spouses or partner and close relatives 23-grants prohibition of double jeopardy all this rights are violated since Dr.Abiyi came to the power when the court releases the people the police arrest them again article-19:3-grants the right to be brought before a court with in 48 hours(rights of persons arrested) but command post keeps the people in Oromia as long as they want no maximam limit even some times they take out of jail and kills them.A good example of the violation of article 19:3 can 2 persons from Genji District 1.Meonin Walga.2.Girma Asefa kept >2yrs in prison with out bringing them before court.

Article 10-grants human and democratic rights but in west oromia the Qeros/youths have no right to play and stand along the streets they can't grow their hairs, they can't hold the oromia flag (OLF) flag and also they check their cell phones if they get them having the picture of wbos/flag they immediately arrest or kill them,

An example of artcle 21-violation in Oromia West wollega Zone Guliso worda Mr.Bekele who is from sanki Dano kebele was arrested at Chalia military camp and his brother Bekuma Jirata went to visit him and also arrested on 11/7/2013 both of them are self employed and they did nothing it is only being oromo that made them guilty.So,how can we trust such agovernment doing so many things un law fully even the command post did not follow the right procedure to be declared in oromia and still on going but the government structures are not in place it is only partially functional in the Towns only, in such case how can we expect free and fair election from the electoral board since they are also not independent /not free from the impact of the Ethiopian federal Government.

If you ask the Ethiopian government officials on a media they deny almost everything.

A good example is Dr. Abiy denying the existence of Eritrean troops in Tigray.We were surprised on the answer of the prime minister on parlament concerning Eritrean troops,he said that they said we can withdraw when you are able to control your teriteries.This shows that Dr.Abiy deos not have control over the Eritrean troops and also the war in Tigray is not yet finished,Stiill the Eritrean troops deos not have interest to withdraw from Tigray region.It is not easy to trust the Ethiopian government most of their promises are often unreliable.

The questions of Qeros concerning the special interests that the state of Oromia should get per the Ethiopian constitution article 49:5 Finfine(Addis Ababa),Concerning Afan Oromo,the boundaries of Oromia,Concerning arbitrary arrest in oromia,Concerning Assasinations in Oromia,Lack of justice,The Ethiopian constitution article 37 grants access to justice,all this did not get an answer,now days it is not possible to ask such questions,no right to demonstrate violation of constitution article 30 .Demonstration is only possible to support Dr.Abiyi/PP.Dr.Abiyi Closed only 1 mayikelawi and opened 1000s of mayikelawis in oromiaregion even in the woyane regim this did not happen at all.

All this on going crimes on Oromo peoples does not get a media coverage from a government side Dr.Abiyi also deosn't show any response when oromos are dyeing or mass arrest.He just ignor when wallow Oromos are attacked by the Amhara Specila forces as you have seen on the Ethiopian parliament last time.He only expresses his condolences when Amhara peoples die.God will judge one day.We don't mean that Amhara should die but the Ethiopian constitution says all citizens are equal befere law. It is very sad when they kill civilians the community can't express their codolences unless the commander in chief permits.Even some times they just arrest the peoples coming for the burial ceremony.

And also Close relatives coming to comfort the family on funeral. The lady whose name is Jorge Asfaw from Yubdo woreda Jarso komto kebele arrested with her 9month infant stayed 3months in prison and released after they killed her husband by the name Mitiku Rufo who was elected officially from the community during team Lemma. Look the Ethiopian constitution article 35+36 grants women's and children's rights.

So please try to reach Oromia and investigate & intervene accordingly as you are doing in Tigray region.

## Summary of Prisoners with their districts (Woredas)

No	Zone	Woreda (District)	Total no of peoples arrested	%
1	W/Wollega	Guliso	155	76%
2	>>	Genji	9	4%
3	>>	Aira	23	11%
4	>>	Yubdo	5	2%
5	>>	Bodji Chokorsa	2	1%
<b>Total</b>			<b>204</b>	

In the Derge Regim if some say *adera highi/Sera* (meaning respect the law/ don't violate the law) no body touches him be it military or civil in Abiy's Regim/PP they don't care even if you say *adara waqa* (God) hence most of Oromo peoples don't want to hear about PP/Naftegna. The Ethiopian peoples are suffering from extreme inflation on top of the insecurity in our country and Abiy's Regim/PP still doesn't care.

### 5. Partially and Totally Restricted Social Services by command posts, in West Wollega zone 5 Districts. Namely-Guliso, Aira, Genji, Yubdo, Boji Chokorsa

The Ethiopian constitution article -19 grants public morality

No	Description	Totally	Partially	Remarks
1	Motor cycle	x		
2	Bajaji		x	Can't enter a country side
3	Ambulance	x		Only military forces are using
4	Public Transport		x	Service is only up to 7pm
5	Internet	x		For about 3 months at d/t times
6	Telephone	x		For about 3 months at d/t times
7	Solar lights	x		They said that you charge mobiles for wbos

As you might see from the table above there were a lot of restrictions for the social services which would also affect the daily activities of the community and the economic growth of the country as well.

Therefore our communities are forced to use the primitive type of means of transportation to reach the health facilities when they are sick. But it is not possible to use such local transport systems to transport deliveries to the health facilities. So, a lot of mothers are at high risk during labour and delivery. Imagine how our rural communities are suffering. The Oromia PP official Taye Dendea has been saying that they did not do anything to harm the community what other harm do they want to do on the community rather than such harm. For example Sajin Ebro Usen the commander in chief of Chalia military camp warned the rural community not use their solar lights as they may charge mobile phones for wbos. Unless and otherwise he will burn the houses of the community. Let the international community see the depth of human rights violation in Ethiopia in Oromia in particular.

This place is in west wollega Zone Guliso District some where around Dilla Gogolla.

**6.Name of few personels who should be responsible for such crimes (Assassination) or property damages,bodily injuries(harms) locally.**

For over all human rights violation in Ethiopia the Ethiopian federal government should be responsible.

No	Name	Title	Woreda	Phone number	Remarks

2	Mr.Arega Nega	Management member	>>	0917892050

5	S/Dagne	>>	>>	-	Jarso Badeso >>
6	Mr.Fayera	Woreda Administrator	Aira	-	

This peoples simply Instruct and kills whoever they want and nobody asks them no trend of accountability and responsibility,No justice at all.They just tell the peoples that they can kill whoever they want(suspected to support wbos ) on public meetings.E.G-Sajin Ebro told the peoples on public meeting on 20/7/2013 not to move anywhere after 6:00.PM unless and other wise I kill you,he said even not to go to health facilities with out permission of the commander in chief of Chalia military camp so,they are not hiding that they are killing civilians.Even if all the government forces were killing oromo peoples they were not as cruel as Sajin Ebro Usen.He is all ways terrifying our communities.

**7.Sexual Assaults Practiced by Ethiopian militaries during the stated period above**

## **9.Miscellaneous**

### **Concerning Assassinations and Property damages**

In Lalo Asabi woreda 5 peoples were killed at one place at the same time while they were collecting coffee around meka Nedjo and one private Car burned the other day 5 peoples killed at the same time(labourers)in Huwa River while taking out a sand by groups by the Ethiopian defense forces.

But for the time being we didn't get their names .Also houses were burned.

From Lalo Asabi *redacted* Kebele the Ethioian defense forces took (robed) **11,000** ETB from one person's residence.(belonging *redacted*) by NDF. may be not safe to call his name on amedia.

In Guliso wored Bedas Dilla kebele 10peoples were killed by Oromia Special forces the same day still we didn't get their names.In Bodji Dirmeji woreda around Bobine a lots of houses were burned stii we did not get their names.

**From Qelem Wollega Zone-** Lalo kille woreda from places Closer to West Wollega the security forces have killed one Driver whose name was Melkamu in Birbir forest and now the transportation from wollega to Ilu Ababor is cut off and the peoples are suffering a lot.Also they have burned 35 houses of the settlers from Harage with in one day or the same day and also killed 6 civilians at the same time from Sago Adami kebele.

The International community can further dig the matter and entertain.

This problem is from the poor governance system of Dr.Abiyi Ahimed and **PP**. We are not simply blaming him we have been respecting him when he first came to the power from now on he is not in the heart of Qeros& oromo peoples any more.

**Justice for Oromo Peoples !**
